

DCN Wireless Project for Holiday Inn Baruna Resort Bali - Indonesia

BOSCH

Invented for life

Industry:

Lodging, Hotels

End User:

Holiday Inn Resort Baruna Bali

The Holiday Inn Resort Baruna Bali was built in a traditional Balinese style to complement its beachfront setting. Apart from the construction of an events room equipped with an excellent conference system, the resort also has a banquet hall and 5 meeting rooms that can accommodate up to 350 people. The total project was completed in February 2009.

Business Objective:

The Holiday Inn Resort Baruna Bali requires a state-of-the-art conference system for their banquet hall and meeting rooms.

Solution:

As advised by the experienced Smart Technic and PT. Multi Sistem Komunikasi, Bosch Security Systems' System Integrator partners, the Bosch Digital Congress Network (DCN) wireless was installed at the resort. Also, the DCN wireless was able to suit the preference of Holiday Inn Resort Baruna Bali to have stand-alone integrated systems for conference room set-ups.

The wireless discussion unit is designed for all kinds of gatherings and meetings. In addition, it offers a high level of functionality, digital convenience, and distinctive styling. The DCN wireless system is easy to install, and can be re-arranged and operated with virtually no impact on the integrity of the location.

Holiday Inn Resort Baruna Bali has full trust in using the Bosch conference system. A total of 6 units of DCN-WCCU, DCN-WAP, LBB 1259, 6 units of DCN-WD-D Chairman, 36 units of DCN-WD-D Delegate, and 6 units of DCN-WCH05 are installed in the DCN wireless system.

Due to the flexible design of Bosch DCN wireless system, the banquet hall and meeting rooms at Holiday Inn Resort Baruna Bali can be set up for conferences and seminars with a great degree of freedom.

Holiday Inn Resort Baruna Bali

Result:

With Bosch's DCN wireless system in place, the Holiday Inn Resort Baruna Bali enjoys an extremely flexible conference solution and a high mobilization of clear communication.

The Building Manager of Holiday Inn Resort Baruna Bali has complete confidence in the system, explaining that "the comprehensive solution from Bosch ensures that we are able to communicate clearly".
